Summary

Full-Stack Developer with 3+ years of experience building scalable web applications using modern front-end and back-end technologies. Experienced in RESTful API development, secure authentication, and database optimization. Strong problem-solver with a focus on performance, clean code, and maintainable system design.

Experience

Full-stack Developer

Bridgeculture Inc., F. Cabahug St., Cebu City, Cebu *Dec 2022 — Feb 2026*

- Developed and maintained full-stack web applications used by **500-1,000 active users**.
- Designed and implemented RESTful APIs using **Spring Boot**, integrating secure backend services with dynamic front-end interfaces.
- Collaborated within a **10-member cross-functional Agile team**, participating in sprint planning, code reviews, and feature releases.
- Delivered new features in bi-weekly sprints within an Agile workflow.
- Improved system performance by optimizing database queries and reducing response latency.
- Implemented secure authentication and authorization mechanisms, including role-based access control and session management.

Education

Bachelor of Science in Information Technology, Sanciangko St, Cebu City, Cebu, 2021 — 2026
University of Cebu - Main

- **Dean's Lister** (1st Year, AY 2021–2022)
- Champion in University Programming Competitions
- Participated in multiple hackathons, developing full-stack prototypes under time constraints

Skills
